

CHAGI SIYAVUYA

SOFTWARE DEVELOPER

BACKGROUND

I am Siyavuya Chagi, a passionate and adaptable software developer from East London, Eastern Cape, with a Diploma in Information and Communications Technology in Applications Development. My expertise spans IT support, web, mobile, desktop, and backend development, enabling me to contribute across the full software stack. I discovered my love for technology while supporting peers in university, where I honed both my technical and mentoring skills. I thrive on solving complex problems, adapting quickly to new environments, and collaborating with teams to build practical, user-focused solutions. Whether in development, support, or facilitation roles, I bring a strong work ethic, technical versatility, and a solution-driven mindset.

PROFESSIONAL EXPERIENCE

WEB DEVELOPMENT FREELANCER

Durban, South Africa | 2022 – present

As a freelance web developer, I specialize in creating responsive and dynamic websites, providing web solutions tailored to client needs, and ensuring optimal performance and security. I continue to work on various projects, offering expertise in front-end and back-end development.

SYSTEM SUPPORT LEARNING FACILITATOR

Loom Group | Bizana, South Africa | 2024 – 2025

Facilitated technical training for over 20 students in Bizana as part of the Loom Group Learning Program, focusing on system support, IT infrastructure, and hardware/software troubleshooting, resulting in a 90% completion rate and improved practical skills assessment scores.

SYSTEM SUPPORT LEARNING FACILITATOR

Within Reach Technology | East London, South Africa | 2025 – 2026

I served as a System Support Learning Facilitator for Within Reach Technology learning program taking place at East London, where I guide students in acquiring technical skills related to system support, troubleshooting, and IT infrastructure.
